Space to Grow

Walton Charity are working to connect people in Elmbridge with nature and each other through access to their green spaces.

We all know the power of nature to heal, here we wish to harness this to support our mental and physical wellbeing. We hope over the coming year to welcome groups, families, children and young people for regular or one-off seasonal sessions with nature connection at the heart.

At 'Space to Grow' we provide a friendly, safe & inclusive environment, where new skills can be learned, alongside other like-minded members of our community.

Our site sits as part of The Tree Canopy project on Home Farm Allotments, Rydens Road, Walton on Thames: gate access is adjacent to 54 Rydens Road KT12 3DW. Parking is on residential streets nearby. The nearest train stations are Hersham or Walton on Thames. From there around 10mins on foot.

If you would like more information and to register your interest, please email – greenspaces@waltoncharity.org. Heading the email 'Space to Grow'
